

MM MILL 500

The new milling generation

EU GMP compliant

Master
PRODUCTS

MM MILL 500

Low RPM for maximum preservation of cannabinoids and trichomes properties.

We are pleased to market the first creation of Master Mills family, MM Mill 500 MED. Compact and ready to use, this milling machine is specially created for industrial facilities looking for effectiveness and easy functional and maintenance equipment.

Made of 100% stainless steel, the grinder achieves gentle results, consistent cannabis particles in different sizes according to each specific demand and final application. Its innovative technology focused on grinding the dry flowers with minimal physical impact loss, generates excellent quality ground results, maintaining flowers properties and chemical content intact.

Easy to assemble and clean, with a tool-free system.

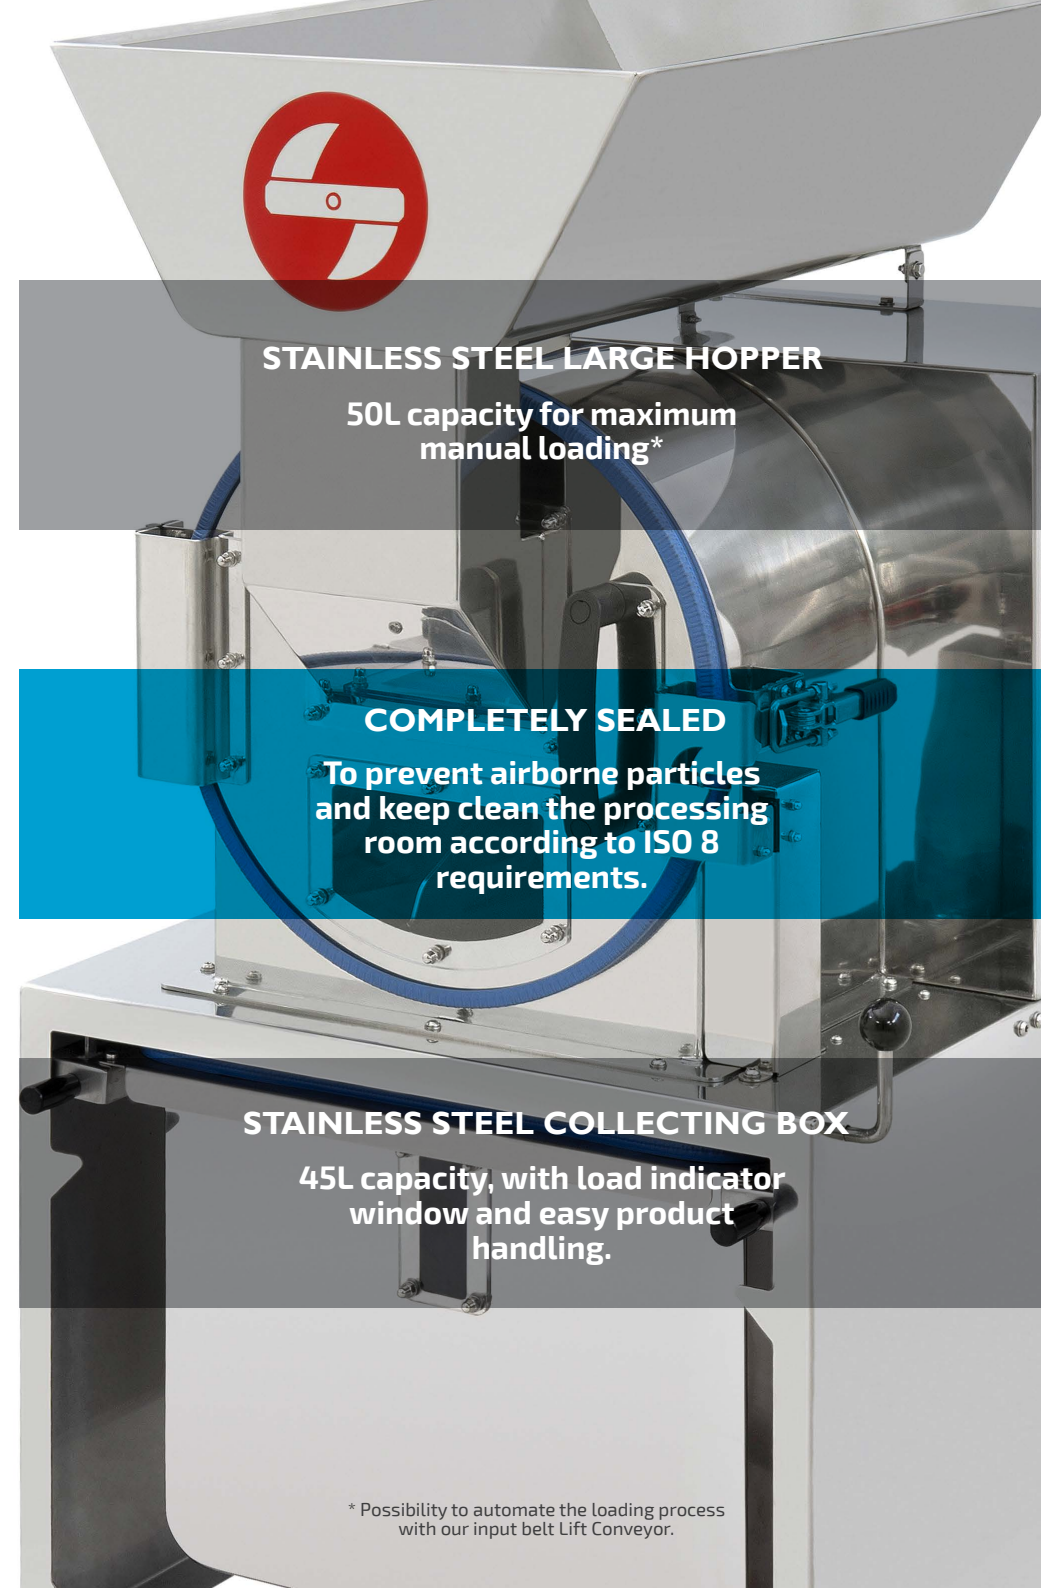

Excellent features.

- 550W Motor power
- Manufactured in stainless steel
- 6 stainless steel blades
- Speed regulation
- High security system
- Emergency stop button
- Easy-fit protective cover
- Large hopper for fast loading
- Stainless steel collecting box
- 3 interchangeable grids included
- Tool-free assembly and disassembly
- Easy clean and maintenance

Adaptability and EU GMP compliant.

The MM Mill 500 is designed to give an easy use and a long service life, being one of the most efficient mills on the market. Thanks to its compact and robust featuring and its total adaptability, the milling process is done in a really comfortable way. Silent and with minimum heat generated due to its low RPM, it allows productions up to 60 Kg per hour. As it is completely sealed, it prevents airborne particles, which helps to keep clean the processing room, as per ISO 8 requirements.

Made of stainless steel, it is fully 100% GMP compliant. This innovative grinder is the perfect solution for medical uses facilities looking for maximum cost efficiency and minimal impact on ground cannabis flowers results.

STAINLESS STEEL LARGE HOPPER

50L capacity for maximum manual loading*

COMPLETELY SEALED

To prevent airborne particles and keep clean the processing room according to ISO 8 requirements.

STAINLESS STEEL COLLECTING BOX

45L capacity, with load indicator window and easy product handling.

* Possibility to automate the loading process with our input belt Lift Conveyor.

Maximum performance. Total efficiency.

The MM Mill 500 offers great performance achieving excellent results. With a 550W motor power, 6 fully stainless steel milling blades and the possibility to adjust the speed as desired, the result is ultra-fine ground cannabis flowers with excellent content for pre-rolls and extraction final use.

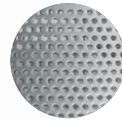

3 interchangeable grids included

Coarser particles
6 mm.

Medium particles
3 mm.

Ultra fine particles
1,5 mm.

Customise the size of the grids

You can customize the grids according to your needs. **As an engineering company, just ask us and we'll assist you to design and manufacture the perfect grid that best suits your final requirements.**

We optimise and adapt our equipment following the strictest quality controls so that they comply with the technical details of the most demanding GMP features, the essential seal of guarantee for all those producers who focus their activity exclusively on medical use and purpose.

60

KG production

=

1

HOUR

* The outputs and equivalencies indicated on each machine have been tested by Master Products operators under optimum conditions for a good performance, and may vary according to the variety of the product to be treated, the environment, usage, maintenance and equipment settings.

Include the Trim Filter Cyclone and upgrade your milling experience.

The aspirator with its powerful 2250W/3hp motor is designed for maximum absorption performance. The polyurethane suction hose has a low curvature that prevents pressurized air from being lost the rounding space.

This filter is required for:

- Clean rooms without HVAC
- Clean rooms without EPA filters.

Assembly & Disassembly IN LESS THAN 60 SECONDS!

Tool-free design. Quick and easy cleaning.

Thanks to its system for removing all the critical parts without any tools, and to the simplicity of taking the blade and grid out, you can clean the machine in a comfortable and simple way. We help you to have an optimum maintenance of your equipment.

Technical Data

Electrical connection	230V 50/60Hz
Machine weight	90 kg
Motor power	550 W
Machine dimensions	69 x 65 x 131 cm
Machine material	Stainless steel
Speed controller	Up to 60 RPM
Grids material	Stainless steel
Grids included	3
Production	Up to 60 kg/h
Sound level	75 dB
Certifications	CE
GMP compliant	Yes
Warranty	5 years

* Images are for reference only and may not match the current model.

* The warranty is for defects in parts and components, not for an inappropriate use of the machinery.
