

MM MILL 200 MED

The most compact cannabis
mill on the market

EU GMP compliant

Master PRODUCTS

MM MILL 200 MED

Ultra-fine results with minimal impact on trichome loss

We present the most compact creation of Master Mills family, MM Mill 200 MED. Specially designed for smaller to medium-sized industrial facilities, it is the perfect solution for those producers looking for a versatile and multi-function milling machine in a small size.

Made of 100% stainless steel, the MM Mill 200 MED achieves consistent cannabis particles in different sizes, depending on final application required. Its innovative technology focused on grinding the flowers with minimal physical impact loss, generates excellent quality ground results, maintaining flowers properties and chemical content intact. Thanks to its low RPM, cannabis flowers retain their cannabinoids and trichomes in optimal preservation.

Compatible with both dry and fresh flowers.

Tool-free system for a simple cleaning and easy maintenance.

Main features.

- 120W Motor power
- Manufactured in stainless steel
- 4 stainless steel milling blades
- Speed regulation
- High security system
- Emergency stop button
- Easy-fit protective cover
- Large hopper for fast loading
- Stainless steel collection box
- 3 interchangeable grids included
- Tool-free assembly and disassembly
- Easy clean and maintenance

Adaptability and EU GMP compliant.

The MM Mill 200 MED is designed to be used in any GMP-ready facility. Thanks to its compact structure and its comfortable adaptability, cannabis milling process is done in a simple and functional way. Silent and with minimum heat generated, it allows productions up to 20 Kg per hour.

It includes a complete safety system to guarantee the security of the operator.

It is made of stainless steel, a noble material that simplifies its cleaning and maintenance thanks to its low porosity. The best option to comply with EU GMP requirements.

- IQ&OQ documentation available.
- FAT&SAT&SOP documentation available.

LARGE HOPPER

For a better product loading

MADE OF STAINLESS STEEL

The perfect material for GMP requirements

COLLECTION BOX

For an easy collection and a better product handling.

* Possibility to automate the loading process with our input belt Lift Conveyor.

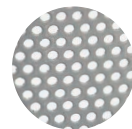

Maximum performance.

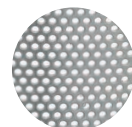

With a 120W motor power, 4 stainless steel milling blades and the possibility to adjust the speed as desired, the MM Mill 200 MED offers ultra-fine ground cannabis flowers results, with excellent content for pre-rolls and medical extractions.

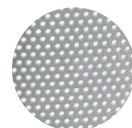

3 interchangeable grids included

Coarser particles
6 mm.

Medium particles
3 mm.

Ultra fine particles
1,5 mm.

Customize the size of the grids

You can customize the grids according to your needs. **As an engineering company, just ask us and we'll assist you to design and manufacture the perfect grid that best suits your final requirements.**

We optimise and adapt our equipment following the strictest quality controls so that they comply with the technical details of the most demanding GMP features, the essential seal of guarantee for all those producers who focus their activity exclusively on medical use and purpose.

Up to

20

KG production

=

1

HOUR

** The outputs and equivalencies indicated on each machine have been tested by Master Products operators under optimum conditions for a good performance, and may vary according to the variety of the product to be treated, the environment, usage, maintenance and equipment settings.*

Include the Trim Filter Cyclone and upgrade your milling experience.

The aspirator with its powerful 500 W motor is designed for maximum absorption performance.

The polyurethane suction hose has a low curvature that prevents pressurized air from being lost the rounding space.

This filter is required for:

- Clean rooms without HVAC.
- Clean rooms without EPA filters.

*Trim Filter Cyclone not included in the purchase.

Assembly & Disassembly IN LESS THAN 60 SECONDS!

Tool-free design. Quick and easy cleaning.

Thanks to its system for removing all the critical parts without any tools, and to the simplicity of taking the blade and grid out, you can clean the machine in a comfortable and simple way. We help you to have an optimum maintenance of your equipment.

Technical Data

Electrical connection	230V 50/60Hz
Machine weight	45 kg
Motor power	120 W
Machine dimensions	38 x 56 x 74 cm
Machine material	Stainless steel
Speed controller	Yes
Grids material	Stainless steel
Grids included	3
Production	Up to 20 kg/h
Sound level	70 dB
Cyclone Hoover possible	Yes
Certifications	CE
GMP compliant	Yes
Warranty	5 years

* Images are for reference only and may not match the current model.

* The warranty is for defects in parts and components, not for an inappropriate use of the machinery.
