

Lift Conveyor

The Master Lift conveyor is an elevating conveyor belt that will allow you to automate your production line in an agile and simple way, considerably increasing your production.

Perfectly integrated between different flower processing equipment, e.g. between the outlet of a Tumbler to lift the flowers to the Master Sorter 500.

The Lift conveyor is made of 304 Stainless Steel and the conveyor belt is made of Food Grade Polyurethane, thus complying with GMP requirements for medical cannabis.

Versatile and complete

- 90 W motor.
- Speed regulator.
- Made of 304 Stainless steel.
- Polyurethane food grade conveyor belt.
- Aluminium roller drive system.
- Removable electrical part for easy cleaning / maintenance.
- 4 stainless steel swivel wheels with brakes, for easy transportation.
- Adjustable tilt from 100 cm up to 145 cm height.
- Possibility of tensioning the conveyor belt easily for optimal operation.
- Completely dismantlable with no need for tools for easy maintenance.
- Emergency stop system
- Air-cooled motor.
- Stainless steel handles for easy transportation
- Easily interchangeable hoper made of 304 stainless steel.

“Elevate” your automation

- Complies with the GMP requirements
- The flower is only in contact with 304 Stainless Steel and food grade Polyurethane
- Adapt your production to your needs thanks to the speed regulator.
- Complement your Tumbler or Master Sorter 500 by facilitating product infeed and outfeed.

REMOVABLE ELECTRICAL PART

STAINLESS STEEL WHEELS FOR EASY TRANSPORT

AUTOMATE YOUR PROCESSES

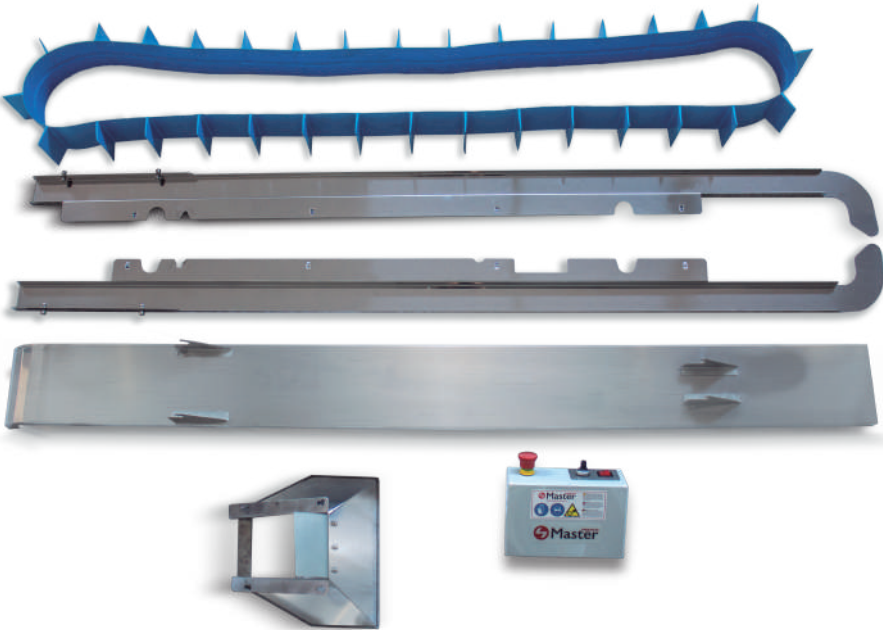

Cumplies with the GMP requirements

The Lift Conveyor has been specially designed to meet the most demanding requirements of the GMP certifications. For this reason, the machine has been made of stainless steel, and the belt of food-grade polyurethane, which are the only two materials that have contact with the flower during the entire transport route. It is also easy to assemble and disassemble, without the need for any tools, in order to reach all the corners of the equipment and remove dirt, facilitating the cleaning of all the parts and pieces of the machine.

Disassemble it easily and without tools

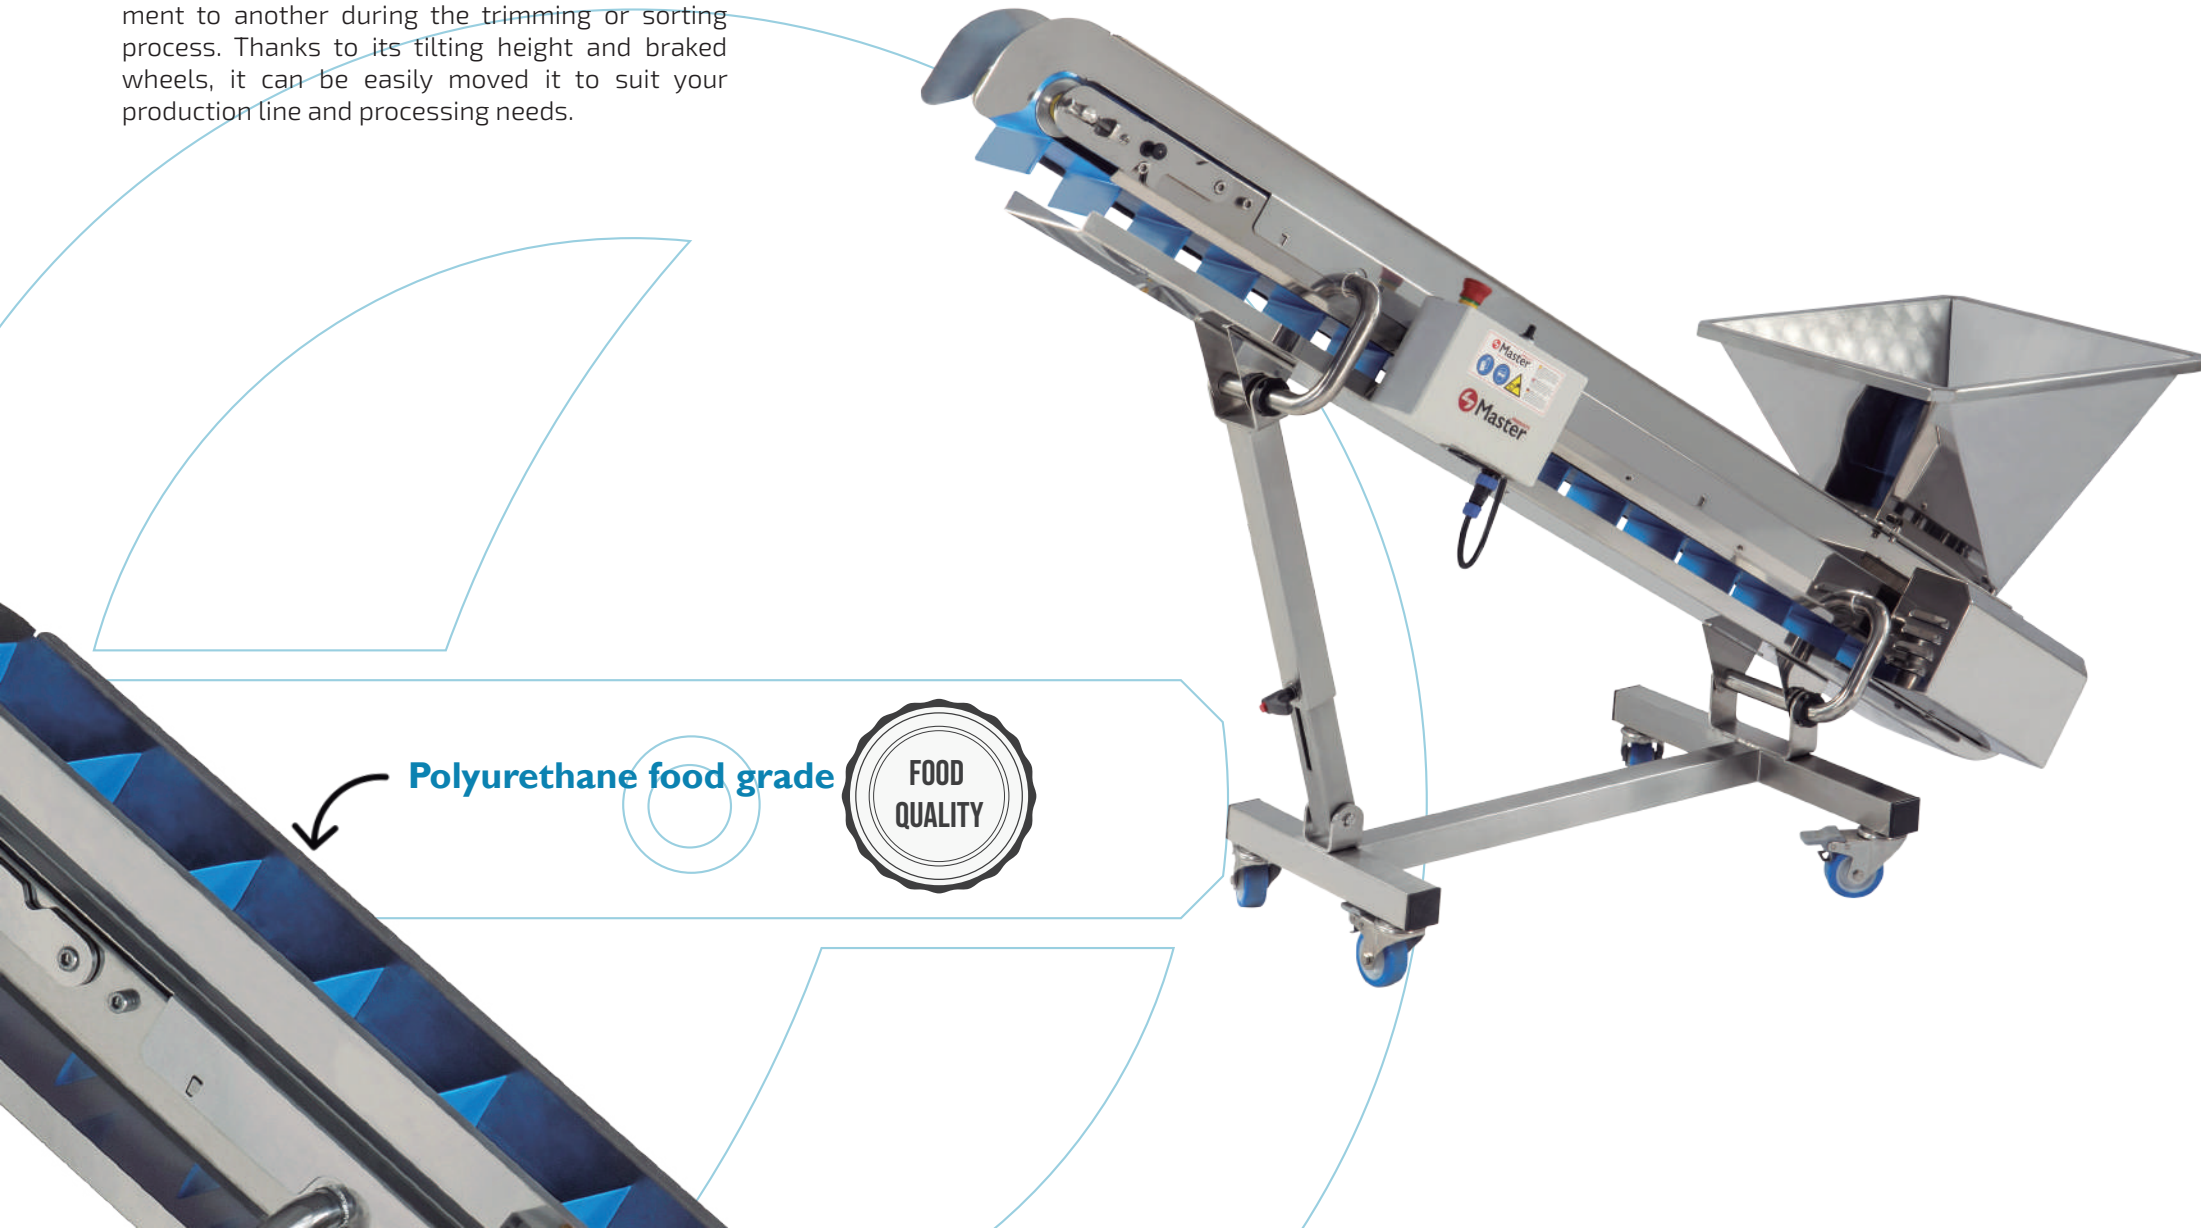

Watch how is done!

Automate your production

The Lift Conveyor is a versatile machine that is ideal for transporting your flowers from one equipment to another during the trimming or sorting process. Thanks to its tilting height and braked wheels, it can be easily moved it to suit your production line and processing needs.

Polyurethane food grade

Technical Data

Electrical connection	230 V
Machine weight	61 Kg
Machine dimensions	187 x 61 x 150 cm
Machine material	Stainless Steel 304
Structural material	Stainless Steel 304
Conveyor belt material	Food grade polyurethane
Engine power	90 W
Speed regulator	Yes
Adjustable tilt	From 100cm up to 145cm
Roller's material	Aluminium
Noise level	50 db
Meets GMP requirements	Yes
Emergency stop	Yes
Warranty	2 years
