

MT DRY 800

Design & power
to get the perfect dry trim

Master PRODUCTS

MT Dry 800

Engineered to process large quantities of dry cannabis flowers

The MT Dry 800 is the biggest trimmer of our dry trimming solutions portfolio, specially engineered for large-scale cultivators and growers who look for high-production rates with high-quality final results

Its 475mm diameter barrel, combined with the 550W motor power and its 3 customised speeds, allow MT Dry 800 to reach productions up to 45 Kg/h in a dry trimming process. Its innovative cutting system trim flowers in an exceptional gently way, preserving all cannabis properties intact. Minimal trichome loss to get high-quality results.

Get impressed by its unique details that make this trimmer unique on the market. Increase your productivity while ensuring complete security for the operators.

Powerful. Versatile. High-capacity.

Main features

- 47,5 cm diameter barrel
- 550W motor power
- Made of stainless steel
- Speed regulator adjustable up to 3 positions
- Stainless steel barrel
- Blades made of food grade nylon
- Automatic blade tensioning
- 25° adjustable inclination for a better product loading
- 2 easily interchangeable collection boxes
- 360° swivel wheels
- Full safety system
- LED light system for function indication
- Production up to 45 Kg/h

LED light system

The MT Dry 800 features a LED light system that indicates its functional status.

Discover its operational mode at a glance!

- White LED > Run status. Ready for operation.
- Red LED > Emergency stop status. Indicates that the emergency stop button is locked.
- Blue LED > Reset condition. A reset is required due to a safety condition, (an unexpected power surge, opening of the main swing hatch, motor overheating or motor failure).

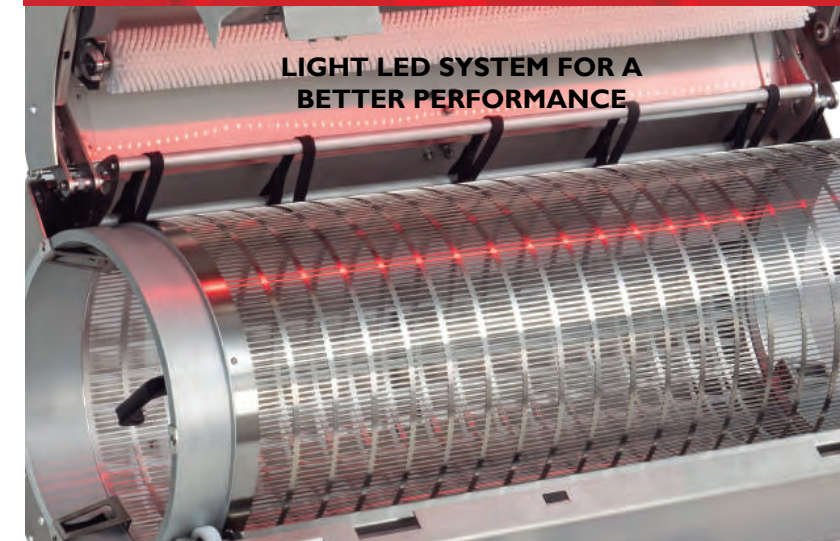

FULL SAFETY SYSTEM TO ENSURE MAXIMUM SECURITY

25° INCLINATION FOR AN EASY PRODUCT LOADING

LIGHT LED SYSTEM FOR A BETTER PERFORMANCE

Large production. Perfect results.

MT Dry 800 is the most competent dry trimmer on the market. Get impressive results in dry processing flowers, keeping maximum safety and optimum quality.

Before trimming:

After trimming:

High productivity

It is considered to be the perfect cannabis dry trimmer for growers who are looking for large production & high profitability.

Gentle cutting

Unique technology developed to achieve gentle handling of dried flowers. Get impressive results and ensure maximum quality.

Inclination adjustment

Adjust the machine inclination up to 25° for a faster and efficient flower infeed and outfeed.

Speed regulation

Up to 3 customised cutting-speeds are available. Choose them depending on the variety and quantity of product to be processed.

Collection boxes

The 2 removable boxes allow an easy collection and a comfortable product handling.

Master PRODUCTS

4 OFF-ROAD WHEELS

Anti-puncture and resistant and all-terrain.

TOTAL ADAPTABILITY

Off road wheels
Move it wherever desired!

With the anti-puncture off road wheel kit, you can easily move it over any type of surface, turning your MT Dry 800 into an all-terrain machine, taking your processing space wherever you need it to go.

Do you have a room with uneven floors? Do you need to move between different spaces? Do it easily with this kit!

Adapt it to any crop!

Assembly and disassembly in less than 1 minute **NO TOOLS NEEDED!**

Cleaning the MT Dry 800 is quick and easy. Thanks to its system for **removing the motor and the electrical part without any tools, and the simplicity of removing the barrel and the rest of main components**, you can clean the structure of the machine in a matter of seconds. Only hot water under pressure is needed.

Further, the 25° inclination adjustment allows you to change the inlet/outlet side as required.

Turn it into a pollen extractor

Versatile design. **2 in 1**

Don't change the machine, change the barrel!

Micron mesh stainless steel screens 100% customisable

With the micron mesh stainless steel barrel you can turn the MT Dry 800 into a pollen extractor.

Its nonagonal structure provides a more efficient rotational movement. The cannabis flowers have a more direct impact while being processed, maintaining its genuinely gentle treatment. There is a major rate of trichome extraction, achieving ultra-fine pollen results. Customise it according to your needs!

Different micronage screen available.

New & upgraded pollen barrel.
150µ microns as standard screen.

Technical Data

Electrical connection	230V 50/60Hz
Total weight	206 kg
Motor power	550 W
Dimensions	142 x 70 x 153,5 cm
Material	Stainless steel
Barrel material	Stainless steel
Barrel diameter	475 mm
Barrel length	1420 mm
Blade material	Food grade nylon
Speed regulator	3 speeds
Inclination for loading	25°
Dry production	45 kg / h
Sound level	70 dB
Emergency stop	Yes
Safety System	Yes
LED indicators	Yes
Certifications	CE
Warranty	5 years

* Images are for reference only and may not match the current model.

* The warranty is for defects in parts and components, not for an inappropriate use of the machinery.
