- + It has been created to meet the demands of large producers.
- + Made on the same principles of the MT Professional, but more powerful and offering bigger production per hour.
- + Safe, clean and fast to clean your plants.
- + Made of stainless steel without any kind of paint to avoid contaminating the flowers.
- + Stainless steel is characterized as a hygienic, clean and durable material. In addition, it prevents oxidation.
- + The most automatic trimming machine in the market. With their doors of entrance and exit with self-closing, that give an unbeatable speed.
- + Equipped with a powerful motor and 4 sharp and calibrated blades of hardened steel for a durable and precision cut.
- + The block is held by 4 legs that give a stability that no other trimmer offers.
- + Adjustable blade speed. Being able to adjust the cutting speed depending on the flower to be trim.
