

MT DRY 500

The best dry trimming
experience ever imagined

MT Dry 500

**Design and functionality
for a perfect finish.**

Compact and easy to transport, the MT Dry 500 is the perfect trimmer for medium-sized growers looking for effectiveness and precision in dry processing.

The result is high quality cannabis flowers, which keep their properties intact, thanks to the technological innovation implemented in the cutting system.

Further, you can turn it into a pollen extractor machine and make your own dry sift by simply changing the barrel. A versatile piece of equipment that offers great work possibilities.

Compact. Lightweight. Silent.

Easy to assemble and clean. Always ready to reach production up to 22 kg / h.

Unique details that make the difference.

- 180W Motor power
- 400mm diameter barrel
- Manufactured in stainless steel
- Food grade nylon blades
- Adjustable tilt for an easy product loading
- Easy fit front cover
- Collecting box
- Tensioner for blades
- Anti-puncture and all-terrain wheels
- No need for vacuuming

Adaptability and ease of use.

It is designed to be easy and comfortable to use. Thanks to its **compact size** and **low noise level**, you can work anywhere, taking your processing space wherever you need it.

The adaptability of its **off-road wheels** allows a **comfortable transport** on any surface, making the MT Dry 500 an all-terrain machine.

MADE OF STAINLESS STEEL

To maintain the structure and quality of the flowers. It minimises their impact and guarantees the properties of trichomes and cannabinoids.

400MM Ø BARREL

Maximum space for easy loading of cannabis flowers. It is designed for comfortable and convenient use.

COLLECTING BOX

The removable box allows an easy collection and a better product handling.

Maximum productivity.

The MT Dry 500 is **pure efficiency**. You will achieve impressive results in dry processing flowers, keeping maximum safety and optimum quality.

It is considered the perfect cannabis trimmer for growers who are looking for high profitability in a compact machine with a high production capacity.

With a 400 mm barrel diameter, an effective cut of 760 mm and a rotation speed of 27 RPM, combined with the powerful 180 W motor, you will reach up to 22 kg/h production, and an equivalent of 10 people.

The removable box allows and easy collection and a comfortable product handling.

Before trimming:

After trimming:

LARGE DIMENSION
760mm effective cutting length.

LOAD CAPACITY
Ø 400mm barrel diameter.

ADJUSTABLE INCLINATION
For easy entry and exit of flowers.

FIXING POSITIONER
For holding the machine at the desired level.

WORKING HEIGHT
For comfortable loading and handling.

OFF-ROAD WHEELS
Puncture-resistant and all-terrain.

COLLECTING BOX
Functional and easy to handle.

EQUIVALENT

* The outputs and equivalencies indicated on each machine have been tested by Master Products operators under optimum conditions for a good performance, and may vary according to the variety of the product to be treated, the environment, usage, maintenance and equipment settings.

Assembly and disassembly in less than a minute **AND WITH NO TOOLS NEEDED!**

We make it easy! Cleaning the MT Dry 500 is quick and easy. Thanks to its system for **removing the motor and the electrical part without any tools, and the simplicity of removing the barrel**, you can clean the structure of the machine in a matter of seconds. Only hot water under pressure is needed.

Turn it into a pollen extractor

Versatile design. **2 in 1**
Don't change the machine, change the barrel!

Micron mesh stainless steel screens 100% customisable

Add extra possibilities and versatility to your equipment! With the micron mesh stainless steel barrel you can turn the MT Dry 500 into a pollen extractor.

Its hexagonal structure provides a more efficient rotational movement. The cannabis flowers have a more direct impact while being processed, maintaining its genuinely gentle treatment. There is a major rate of trichome extraction, achieving ultra-fine pollen results. Customise it according to your needs!

New & upgraded stainless steel pollen barrel 120µ microns as standard screen. Customise yours!

**Different micronage screens available.
Ask us for more information!**

Upgrade your pollen extraction with the **CO² Cooling Kit**

Increase the quality of pollen extraction by adding the CO² Kit to the MT Dry 500 trimmer.
A CO² injection cooling system that integrates easily with the equipment, along with the pollen barrel.

Thanks to the cooling system, the trichome extraction rate increases significantly, achieving a final result of higher quality and maximum purity.
CE Certification.

Kit contents:

- 1x Cooling tube made of stainless steel
- 11x Connection tube made of food-grade silicone.

Easy and quick-connect fittings.

It is recommended for use with dry plant material

* Liquid CO² bottle not included with the purchase.

Technical Data

Electrical connection	230V 50/60Hz
Machine weigh	53 kg
Motor power	180 W
Machine dimensions	970 x 840 x 1290 mm
Machine material	Stainless steel
Barrel material	Stainless steel
Barrel diameter	400 mm
Barrel length	760 mm
Barrel speed	27 RPM
Blade material	Food grade nylon
Inclination for loading	Yes
Dry production	22 kg / h
Sound level	65 dB
Certifications	CE
Warranty	5 years

* Images are for reference only and may not match the current model.

* The warranty is for defects in parts and components, not for an inappropriate use of the machinery.
