

MT TUMBLER 900 MED

THE LARGEST & SAFEST CANNABIS TRIMMER

Designed to replicate traditional cutting performance on an industrial scale, ideal for large LP facilities.

- Made of stainless steel.
- Innovative C-TECH cutting system.
- 3 flexible barrels, each incorporating 3 blades and 4 counter blades.
- Barrel and blade speed regulator according to the flower's variety.
- Wet & Dry trimming.
- Emergency stop.
- Tool free disassemble system.
- Easy cleaning & maintenance.

Technical data

Electrical connection	230V / 50/60 Hz
Weight	194 Kg
Measures	145 x 74 x 120 cm
Material	Stainless steel
Motor power	1100 W
Barrel power	250 W
N° Barrels	3 x 3 blade reel
Barrel diameter	160 mm
Speed regulator	Yes
LED operation indicator	Yes
Adjustable inclination	Yes
Decibels	90 dB
Warranty	5 years

1xMTT900

TRIM WET  Up to **60** Kg/h

TRIM DRY  **30** Kg/h

2xMTT900

TRIM WET  Up to **120** Kg/h

TRIM DRY  **60** Kg/h

EU-GMP Complaint

- Critical components made of stainless steel.
- Full traceability of the parts in contact with the flower.
- Avoid cross contamination.
- No corners.
- Material certification available.
- IQ & OQ documentation validation.

C-TECH cutting system

Innovative cutting system designed to industrialize traditional trimming performance, delivering gentle handling and premium flower results.

- High precision cut.
- 3 flexible barrels.
- 3 reel blade system.
- Flexible static blades adapt perfectly the rotating blades.
- Adjustable blade cutting height.
- Barrel and blade speed control.
