

MT TUMBLER 900 MED

THE LARGEST AND SAFEST CANNABIS TRIMMER

The **MT TUMBLER 900 MED** is designed to replicate traditional hand-trim quality for both wet and dry flower, at industrial scale. Ideal for large LP facilities and MSOs.

EU GMP compliant.

- Innovative C-TECH cutting system.
- 3 flexible barrels, each incorporating 3 blades and 4 counter blades.
- Barrel and blade speed regulator according to the flower's variety.
- Emergency stop.
- No-tool disassemble system.
- Fully made of stainless steel.
- Easy cleaning and maintenance.
- IQ & OQ documentation available.

1xMTT900

TRIM WET  60^{kg}/_h

TRIM DRY  30^{kg}/_h

2xMTT900

TRIM WET  120^{kg}/_h

TRIM DRY  60^{kg}/_h

EU GMP COMPLAINT.

A GMP-ready processing infrastructure for medical cannabis and large-scale regulated production.

Technical data

Electrical connection	230V, 50Hz
Barrel motor	1100 W
Material	Stainless steel
Barrels	3 x 3 blades
Decibels	90 dB
Weight	194 kg
Dimensions	145 x 74 x 120 cm

- Critical components made of stainless steel.
- Full traceability of the parts in contact with the flower.
- Smooth surfaces for easy sanitation & avoiding cross contamination.
- Material certification available.

C-TECH CUTTING SYSTEM

An innovative cutting system designed to industrialize traditional trimming performance, delivering gentle handling and premium flower results.

- High precision cut.
- 3 barrels
- 3 reel blade system.
- Flexible static blades that adapt perfectly to the rotating blades.
- Adjustable blade cutting height.
- Barrel and blade speed control.

Wet & dry trimming

No barrel change required.
One machine. Two workflows.
