

MB BUCKER 500 MED

INDUSTRIAL CANNABIS BUCKING SYSTEM

The **MB BUCKER 500 MED** is designed for regulated medical facilities to process wet and dry material at industrial scale, with full sanitation access.

EU GMP compliant.

- 3 heads included.
- Speed controller.
- Reverse direction.
- Liquid collection tank.
- Integrated stem chipper.
- 2 independent motors.
- No-tool cleaning and maintenance.

BUCK WET

UP
TO
65 $\frac{\text{kg}}{\text{h}}$

BUCK DRY

UP
TO
20 $\frac{\text{kg}}{\text{h}}$

2 IN 1: BUCK & CHIP.

At the rear, a blade chips excess stems. The completely chipped residue is deposited in an output box while maintaining hygienic conditions and GMP requirements.
