

MS SEEDS 200

CANNABIS DESEEDER & CLEANER

The **MS SEEDS 200** is the first compact machine on the market engineered to separate and clean cannabis seeds in a fully automated process, in one unique step.

All-in-one deseeder for professional breeders.

- Adjustable airflow.
- 2 storage containers for seeds and plant material.
- Air cooled motor.
- Compact size and low noise.
- No-tool system.

MAX 30
kg/h

FINEST & GENTLE RESULTS

Stop removing seeds by hand. The MS Seeds 200 automates separating, cleaning, and collecting. Gentle on seeds, thorough on separation.

Technical data

Electrical connection	230 V / 50 Hz
Motor	180 W
Material	Stainless steel
Deseeder material	Food-grade nylon
Decibels	75 dB
Weight	38 kg
Tank dimensions	62 x 44 x 100 cm

Plant matter

Seeds

An innovative deseeding system.

Specifically engineered to protect seed structure and quality through every stange of production. Nylon fingers gently cushion seeds during loading, preserving full properties after separation. The gentle aspiration ensures seeds emerge perfect: no scratches, cracks or damage. White seeds are automatically removed form final sorting, leaving only viable, high-quality seeds.

100% integral seeds ready to be used or replanted.
